

EMMETT 4 Animals HORSES

Course Invitation Emmett Technique 4 Horses Short Course - 6 hours

A unique opportunity to learn how to assess your horse to find the cause of any restriction, and even more importantly, how to easily release that restriction

The Emmett Technique - EMMETT 4 Horses Short Course - has been developed so that everyone has the opportunity to learn how to help ease pain and discomfort, increase movement and improve quality of life. It works equally well on humans and animals.

This course is designed for all equine enthusiasts - it covers four moves to help your horse, plus two human moves that can help handlers and riders.

Ross Emmett has been a Remedial Practitioner since 1980 with experience in many body therapies. This is your chance to join the worldwide group of people who have learnt the EMMETT Technique for Humans and Animals.
